PRESIDENT-ELECT'S PAGE

Convention Notes

On entering the convention hall it was strikingly noticeable at once that the attempted "Streamlining" of the meeting was a complete success. The fanfare and display of the usual convention was conspicuous by their absence.

Barely more than 24 hours of intense activity completed the usual business routine and presentation of war and scientific program. This was an elegant demonstration of conservation of time and effort. It was really more than a mere gesture.

Panoramically, the events of the past 2 years of war effort were unfurled before us by review of the activities of the War Production Board. The original formation and inception of the Board; its record of achievement; its future plans for both civilian and war needs were ably discussed.

We now have one physician for each 1500 inhabitants. The armed forces will require seventeen doctors for its 1943 quota from Mahoning County.

Industrial Health and Industrial Health Services to "keep them working" were interesting topics, as also was that on Women in Industry.

A newly appointed important committee is the Victory Fund Committee with Dr. F. W. McNamara, chairman. Also on the same committee are Doctors C. R. Clark, R. R. Morrall, A. M. Rosenblum, R. W. Fenton, C. H. Campbell, V. L. Goodwin, Wm. Sovik and Lawrence Segal.

Thus you see that Medicine and our own Society are doing our full part to win this war.

ELMER H. NAGEL,
President-Elect.

Editorials ---

Dr. Reyecraft Wowed Us!

Dr. J. L. Reyecraft, speaking to us at our last meeting, March 16th, on "Modern Methods of Diagnosis and Treatment of Sterility," placed his shots right where they carried power. He pointed out several things that more than several of us didn't know. His discussion was as sound as pyrex and easily as clear. It is not usual that such a fine presentation of solid facts kneaded with hearty anecdote is so expertly executed. Those who had to miss this treat of fun and substance weren't lucky!

This month of April will bring another fine program. To be with us on the 20th (3rd Tuesday night) the program Committee has arranged for Dr. A. J. Beams of Cleveland. Dr. Beams will bring an associate with him to demonstrate many important phases of his discussion of Dietary Problems.

POSTGRADUATE DAY:

Casualty of War!

One casualty of this crazy conflict is the temporary "elimination" of Postgraduate Day. For fourteen consecutive Aprils, we have been blessed by the presence of our nation's truly Great in Medicine. In essence, this is equivalent to saying that the WORLD'S Truly Great in Medicine have graced the programs and honored the membership of our Society.

Now, and probably for the "duration," "P-G Day" has fallen victim of war's dislocations. This Special Day has come to be known very widely as a distinguished success,—perhaps the most successful of its kind. Those who know recognize that to let such an enterprise die permanently would be an unforgivable tragedy.

Postgraduate may never be carried on again. But if it is not, those who in the future shall conduct our Society's affairs will be as blameworthy as their predecessors deserve honor for sustained service. We must not accept defeat!

But for now, most of the members of the Program Committee, realizing the difficulties of travel, provision for food, and above all realizing that with so many of our distinguished medical teachers either in the war or swamped with work at home, a suitable faculty would be very hard to get,—they decided that this (to have been) the 15th Annual Postgraduate Day must be omitted.

The next meeting, April 20th, will be held in the Auditorium of the Nurses Home, South Side Unit of Youngstown Hospital.

(Entrance on Francis Street)

A FOOD DESSERT

In delicious combinations of ice cream and fruit sherbet, Isaly's novelty bricks provide not only refreshing, flavorful enjoyment but full measure of wholesome nutrition in vitamins, protein and minerals from the milk, cream, sugar and flavors of which these bricks are made. Serve them often for health and enjoyment.

ISALY'S

FROM OUR DOCTORS IN THE SERVICE

Luke Looks to Home Front!

Muroc, Calif., Feb. 23, 1943

Dear George:

I'm writing a short note to let you and the friends there know what I'm doing. It doesn't look at the moment as tho my life is going to be filled with the glamor and excitement that many of the boys are having in combat units and areas, but it has promise of interesting and beneficial experience. As you may know I am waiting at this Post for the opening of a 250 bed Station Hospital which has been all ready to go into operation for 2 weeks except for a fault which developed in the water supply and is requiring considerable pipe-work to complete. Our staff is largely gathered except for about 3 men who are yet to come on. I am Chief of the Medical Service and will have some good men with me on Medicine. The group includes several men from the middle west but none that I have known before. It looks like a swell group and the men are all well-trained, so we should have a well-functioning unit before long.

This Base is pretty much out in the desert, is new and is growing very fast. In the few weeks I've been here there has been a lot of growth and improvement in all matters. The place owes its importance to its great strategic location: 2500 feet elevation, a desert plateau among the mountains, 110 miles from Los Angeles, with 360 flying days a year. It is cold at night, but gets very warm in the daytime; in the summer I am told it is 140 in the shade at noon, but is cool enough to sleep comfortably at night.

It has meant a lot to get the Bulletin and read the letters of the other fellows. It is pretty difficult to keep up with them in private correspondence. A few facts I have had from letters which may not be known to you all. Sam Weaver and Pete Boyle were sent from Miami Beach to Chicago where they are working in the same Hospital with Jack Noll. Nels was in Chicago taking a course in Neurosurgery a few days ago when I heard from there. Fred Schellhase was in Walter Reed taking a course in Tropical Medicine a few weeks ago. I saw our old interne Ken Bennett at Miami Beach, but have had no word since he left there. Our Medical enlistment detachment here has 3 or 4 boys from around Youngstown and vicinity, but I haven't seen any of the old Mahoning County Society since I left Miami Beach.

I wake up every morning with the roar of P-38s and go to sleep with the roar of B-24s. Pilots move in and out of here in great numbers and we get to know a lot of them. If it takes guts, brains and enthusiasm to win a war, we sure ought to win it soon because these kids have got it all.

I know that the fellows at home are getting a real licking and are paying a pretty price for victory, too. It seems that in the past few weeks there has been more realization by the whole American public of each individual's responsibility, and it appears to me that this fact has done much to boost the morale of the men in the service.

I hope my best wishes and greetings may reach all of the fellows in the service, and I hope the Bulletin continues to reach us all and keep up the old Mahoning County contact.

Yours very sincerely,

LUKE

(Lewis K. Reed, Capt., M. C.)

*

Asher Bobs Back

March 23, 1943.

Dear Dr. Norris:

Judging from your note to Mrs. Ivan Smith's very interesting report about Mahoning County Medical Society men in the service, I've apparently become lost in the shuffle. So-o-O, here's a brief resume of my activities.

As you will note I'm at the Portage Ordnance Depot which comprises part of the Ravenna Arsenal, the other half being the Ravenna Ordnance Plant. With me here are Mrs. Randell and our nineteen months old pride and joy, Betty.

I'm in command of the Station Dispensary, ministering to the ills of all military personnel stationed at the Ordnance Plant and Depot; care for all civilian government employees, and of course, the usual other duties required of the Post Medical Officer. Boiling it down, it's Industrial Medicine, plus. The details would be boring, and besides there's a paper shortage.

Please put me back in the "found" column, and I'll write once in a while in order to stay that way.

Many, many thanks for the Bulletin.

Capt. Asher Randell.

P.S.: If you write to "Incognito" from Chicago, give him my best.

Marvin's Newsy!

March 6, 1943

Dear Claude:

It is sometime since I received your letter but I have been quite busy and allowing my correspondence to pile up. Tonight I am on watch and figured it would be a good time to try to catch up.

Nothing very exciting has happened since I last wrote. I recently removed a melanoma from a leg and sent the specimen to Bethesda for examination. I received the report which was signed by Lt. Comm. C. F. Greschictar. Do you remember when he gave us a series of lectures a few years ago? It made me think of the good old days when I could attend meetings of the Mahoning County Medical Society. Last week I removed a lesion from a 25 year old man's face which he claimed was present only three weeks. I made a diagnosis of epithelioma which was confirmed by the laboratory.

This week a boy came in and wanted treatment for acne. He had no signs of acne and I told him he didn't need any treatment. He said he thought he would like to take some anyhow as it might prevent getting it. I told him I couldn't give him any preventive treatment for acne but would be glad to give him preventive treatment for piles. He said he didn't want this as he didn't think he would ever get the piles.

I saw a boy today who had quite a severe case of acne and I asked him if he ever had any treatment for it. He said he had some before coming to the navy. I asked him where and he said "in Ohio." Upon further questioning, I found he was treated in Youngstown.

As a rule boys are very grateful and appreciative of any help we can give them. Often before being sent to other parts of the world, they come in to tell me goodbye and frequently they want me to autograph a book or picture they take with them. Some drop me a line from foreign stations to let me know how they are progressing. It also has a practical value to have this appreciation. This morning before our weekly inspection, I called for volunteers from the waiting patients. I got 12 boys who cleaned the windows and waxed the floor and made everything ship-shape so that inspection was passed with flying colors.

Hope you are feeling well and able to keep warm. We had a temperature of 32 degrees below, recently. Remember me to the folks in Youngstown.

MARVIN.

Lt. Comm. M. B. Goldstein.

Joe Developing Chest Service

Pearl Harbor, Feb. 26th, 1943

Mahoning Co. Med. Soc.

Miss Herald:

I have been receiving the Bulletin regularly and can't tell you how much I enjoy being kept up to date on the things at home.

We have recently opened a new hospital here and it is a beauty. I have the Chest Surgical Service and have been kept quite busy and enjoy it a lot. Next to being home this is everything I could wish for.

My tardiness in writing to thank you for the Bulletin is no indication of how much I enjoy it. Please keep on sending it. Regards to all.

Lt. J. P. Keogh.

*

Thanks, Says Szucs

177 Milk St., Boston, Mass

March 17, 1943

Dear Miss Herald:

Many sincere thanks for your mailing the Mahoning County Bulletin to me. I wish to inform you at this time that I have a change of address. My past station was at Gallups Island. Now I am at the Boston Enrolling Office, 177 Milk St. In fact a title goes with this station Chief Medical Officer in charge of the U. S. Maritime Service Enrolling Offices, Medical Departments, in New England, Area 1. It is just a lot of words with just that much sense. I have enjoyed the Bulletin immensely especially reading about the other men from Mahoning County serving their country. Above all I do wish to be remembered to Dr. Paul J. Fuzy—too bad I can't get to vaccinate his son—it never did take—what luck; also Dr. William M. Skipp and a few of my cohorts on the St. Elizabeth Hospital Staff.

One thing my present appointment has afforded me is the ample opportunity to visit the Hospitals in Boston weekly. Perhaps one would consider this a bit of luck; I consider it a break of good fortune.

I will be looking forward with extreme anxiety to the next issue of the Bulletin.

Very respectfully yours,

M. M. SZUCS, USPHS (R)

Passed Ass't. Surgeon

April

Capt. Kissinger at Wichita Falls, Texas
March 24, 1943.

Dear Dr. Norris:

After six weeks at Miami Beach, I
ended here. Have had three wards of
infection—mumps, measles, scarlet fever
and meningitis to look after.
Hope you are not working too hard.

Capt. C. F. Kissinger

*

Sidney Goes Back to St. Johnsbury
March 23, 1943.

Dear Claude:

If you think I am still entitled to the
Bulletin, please change my mailing ad-
dress. It serves as my real contact with
my medical friends of years of acquaint-
ance. It tells me of the things worth
while that my alma mater of medical
societies accomplishes. No where have
I known of a Society as progressive and
one that dares to initiate new undertak-
ing that enlightened ideals suggest. The
profession in Youngstown has established
standards for medical men to meet that
can well be a beacon light, the beam
of which others may well follow.

SID.

Dr. Sidney McCurdy.

*

Lt. Firestone Will Spin Tales
When He Comes Home!

Somewhere in N. Africa, Mar. 3, 1943

Dear Miss Herald:

Just received the December issue of
the Bulletin. Thanks a lot.

Had I the literary ability of my col-
league Lou Deitchman, I would probably
be able to fill your next issue. I'll save
my tall tales for the sessions after the
war.

Keep 'em coming.

Lt. B. I. Firestone.

(Why wait, "Lieut."?)

COULD BE

Joe: Did you say your girl's legs
were without equal?

Jack: No, I said without parallel.

*

SCHOOL STARTS

Teacher: "How would you punc-
tuate this sentence: 'The wind blew
a ten dollar bill around the corner?'"

Jeanne: "I would make a dash af-
ter the bill."

JUST IN TIME—

"So you gave up your plans to
elope."

"Yes, we discovered that dad was
planning to move and we didn't know
where to go when we got back."

*

A GOOD PRODUCT

"Yassah," said the little colored
boy. "Ise named for my parents. Dad-
dy's name Ferdinand, and Mammy's
name was Liza."

"What's your name, then?"

"Ferdiliza!"

*

THESE ENGLISH—

A tramp stopped at the kitchen
door of the farmhouse and asked for
something to eat.

"If you'll go out in the woodshed,"
the farmer's wife told him, "and
split up the logs you find there, I'll
give you a good meal."

In a surprisingly short time the
tramp returned; but an inspection
of the woodshed by the good wife
showed all the logs carefully split
except one gnarled, knotty old stump.
Well satisfied, she spread a generous
meal before him, and as he ate, she
said: "I do wish you'd tell me how
you split those logs so quickly and so
easily."

"Why madam, I simply stood be-
side them and told them funny
stories, and they split themselves."

In the middle of the night, there
was a great commotion in the wood-
shed, and on rushing to investigate,
the amazing discovery was made that
the gnarled, knotty old stump had
split itself into a thousand pieces.

It was a piece of English walnut.

*

'CHUTE TROUBLES

Miss Gushin: "It must be wonder-
ful to be a parachute jumper. I sup-
pose you've had some terrible ex-
periences."

Parachutist (fed up): "Yes, miss,
terrible. Why once I came down
where there was a sign: 'Keep Off
the Grass.'"

We are sending the Bulletin first class to our men in service and request that they acknowledge receipt of it. We at home will always be grateful to our Service Men for a word for the Bulletin. We hope to receive many letters from our men each month. We would welcome letters from our nurses, too.

CLAUDE B. NORRIS, Editor

Phone 37418

NOTE: IMPORTANT! Meeting place this month, Auditorium,
Nurses Home, South Side Unit, Youngstown Hospital.

April Meeting in the S. S. Auditorium

DR. A. J. BEAMS

Associate Professor of Clinical Medicine, School of Medicine,
Western Reserve University.

AILEEN MERWIN

Instructor, School of Dietetics, Western Reserve University

TOPIC

THE DIETARY TREATMENT OF CERTAIN DISEASES

PRACTICAL DEMONSTRATION

This is an **Extremely Timely** Subject. By his study, experimentation and practical application, Dr. Beams is recognized as one of the nation's outstanding authorities on dietary problems. In addition to his numerous shorter papers and reports of his investigations, Dr. Beams is the author of an excellent book dealing with nutrition in conditions such as diabetes, ulcer, and various other diseases.

RIGHT NOW, therefore, every doctor is certain to be helped greatly in these tedious and technical difficulties. Dr. Beams has been working on the task of getting for the patient requiring special dietary management, the most of the right sort of foods for each coupon in his rationing book.

NOTE PLACE OF MEETING

At

THE AUDITORIUM OF THE NURSES HOME,

South Side Unit, Youngstown Hospital

(Entrance on Francis Street)

Tuesday Evening, April 20th, 8:30

ON SERVICE MEN

Mrs. A. J. Brandt Reports:

(Continued from March Issue)

Dr. Clifford is most advantageously located in Brazil in a beautiful hospital which is the last word in equipment. It is the operating base for the Atlantic fleet and takes care of the air corps, marines, and the personnel as well as the navy. The hospital also has first aid contact with the natives, but on account of government regulation the care of the natives is confined to first aid. Dr. Clifford, who left here on December 24th, is the only surgeon at the base, and has received much valuable training, having come across almost every type of operation. When the fleet is in they are particularly busy, since the ships would prefer to reach a base rather than to operate at sea. While there is no official warship, every man is on his honor and sends his own dispatches, so that there is no way of telling whether there is much casualty work, but it is assumed that there is much of it going on there. The country is very beautiful; summer is just beginning now. Eight of the doctors live in a home overlooking the sea. Here they maintain an establishment of three servants and a cook for three months a month for all of them. The cook they sent into the hospital to learn American cooking so that they have an excellent variety of American and native dishes. Besides, they have a wine list with every thing, and are able to buy fine German beer, Brazilian made. American liquor, at \$8.00 to \$10.00 a fifth is of doubtful origin. They are 20 minutes from the town of Racifi, and most of their entertainment has come in the form of invitations from the ships in port to come out to dinner. Dr. Clifford is planning a vacation to Rio one of these

dispensary, caring mostly for feet. The soldiers are required sometimes to march 9 miles in an hour and 40 minutes and many have suffered severely in the feet. He is now being transferred to an Umpire School which means that he will be trained in the erection of hospitals on or rather near fighting fronts. The weather is variable. It is hot during the day and quite cool at night, so that most of their recreation consists of keeping the coal stoves going during the evenings. There are four to ten men in each hut and Dr. Neidus is fortunate in having as hut mates several southern doctors who, he says, are always amusing and are good morale builders. There is no night work, except when an alert is sounded and they must dress and move out in the dark. The doctors are able to use the jeeps to get around in, so the enormity of the camp is no particular hardship.

Dr. Kupek is at Peterson Field in Colorado Springs. Here everything is quite raw and unfinished. The hospital, which has just opened, can as yet accommodate only minor surgery due to a lack of equipment. When Dr. Kupek first went out, he was at Buckley Field about ninety miles away from Peterson Field where, for lack of his regular services, he was put in charge of War Bonds and Commissary. Naturally, he was quite bored, and even now is more homesick than anything. Five miles from the town of Colorado Springs, the men must live in as yet incomplete barracks. The sand storms are responsible for raw throats and irritated noses. Nurses are just beginning to arrive, which will be an enormous help, since the doctors were obliged to write their reports on their own time in the evenings. Dr. Kupek was fortunate in meeting a doctor who has prac-

Dr. Neidus is at Camp Shelby, Mississippi where he has been in the

GASTRIC ACIDITY

Pulvis Sippy Improved

Bismuth Subcarbonate

Magnesium Carbonate

Calcium Carbonate

Sodium Carbonate

Diatase

Oil Peppermint

The balanced formula of this prescription combines the neutralizing of the heavy carbonates, for quick relief, with the light carbonates for sustained action. Diatase converts excess starches into the digestible sugars—dextrose and maltose.

Dispensed in 4 ounce and 16 ounce jars.

Teaspoonful in water as ordered.

This fine prescription has met with gratifying acceptance locally—Prescribe it.

PATRONIZE OUR ADVERTISERS AND MENTION THE BULLETIN

THE MERCER SANITARIUM

MERCER, PENNSYLVANIA

For Nervous and Mild Mental Disorders. Located at Mercer, Pennsylvania, thirty miles from Youngstown. Farm of one hundred acres with registered, tuberculin-tested herd. Re-educational measures emphasized, especially arts and crafts and outdoor pursuits. Modern laboratory facilities.

Address:

W. W. RICHARDSON, M. D., Medical Director
Formerly Chief Physician, State Hospital for Insane, Norristown, Pa.

iced in Alaska for fifty years and who has become his great friend.

Dr. Colla is at Walter Reed Hospital in Washington. His work is mostly in emergencies and therefore much of it is at night, although lately he has had many WAACS to examine for officership. There are 300 or 400 beds in his particular emergency department. He usually has Sundays off. He feels that he is learning as much as he would in a post graduate course, and in spite of being very busy, he is homesick. Last week he was here because his child was quite ill, but she is recovering.

Dr. Marinelli is at a point of embarkation in New Orleans. He is chief surgeon at the post. When he first arrived he was put into the dispensary because he knew and could speak French, Italian and Spanish, and there were so many foreigners there. There are about 60,000 men in the camp at all times. The barracks are nice and the weather has been, of course, lovely. Dr. Marinelli gets into New Orleans quite often and has enjoyed the sightseeing and eating there. Recently he accompanied 400 boys to Fort Dix. Probably, although he has not said so, he is seeing casualties return and caring for them. He has a lot of good friends on the post, but he is, like so many of the men, homesick for Youngstown.

Dr. Smith is at Camp Campbell, Kentucky, where he is in charge of physical medicine. He hopes soon to

be transferred to Billings General Hospital in Indianapolis where his work will be in fever therapy. However, he does not regret the experience he has had at Camp Campbell. The officers quarters and the food are good, and he is just twelve miles from Clarksville, Tennessee. He is free every day at five and also on Saturdays and Sundays. If he goes to Billings, the whole family will join him there.

John Renner is at sea and there is little news which can be repeated about him. He is on a seaplane tender, a very beautiful ship which the navy men have dubbed, "the Hotel," because it is so new and fine. There is a splendid operating room and John is the ships surgeon. He also helps the other doctors in general medicine and feels that his experiences are most worthwhile. He is never bored because there is a constantly changing personnel aboard as the ship ferries officers and pilots hither and yon. Their big worry is of course, the submarine, but otherwise, the voyages are thrilling and interesting.

Dr. and Mrs. Reese are at the Maritime Training Station at Manhattan Beach. I know only that he is very busy and enjoying his work.

Dr. Conti is at the Naval Hospital in Norfolk, Virginia.

Drs. Scarnecchia, Randall, Boyle, and Cafaro are the four about whom I was unable to obtain any information. Perhaps someone here can tell us about them.

Mrs. Coombs Reports:

(Continued from March Issue)

At the present time there are four of our Youngstown doctors stationed in Chicago, namely, Doctors Noll, Weaver, L. Deitchman, and Nelson. The first three named have been there for the past several months, but I've been told that Dr. Nelson is there for a six week's course of some sort and is to return to Camp Breckenridge in Kentucky. By the

way, Dr. Herman Kling is at Camp Breckenridge, also. Noll, Weaver and Nelson have always been close friends and palsy-walsy in civilian life, and I can imagine that a ladies' afternoon bridge club couldn't hold a candle to their chatter when they manage to get together of an evening in Chicago! The pros and cons of the practice of medicine in the Army

"Plus" Rations for Babies

WHILE grownups count coupons and hoard points, many members of the youngest "set" are regularly receiving a "plus" ration that costs them not a

point. For infants fed on Baker's Modified Milk will continue to get those seven extra dietary essentials included in Baker's: a rich supply of essential protein (40% more than breast milk), complementary gelatin, an adjusted fat, two added sugars, 400 units of vitamin D per quart, extra vitamin B complex, and iron—all in highly tolerable form . . . Are you feeding Baker's Modified Milk, doctor?

LIQUID and POWDER

For prematures, or for newborns entirely bottle-fed, best results are secured with the Powder Form.

The Scott Company

32 North Phelps Street

are probably discussed from A to Z.

Dr. Hathhorn, who is stationed at Camp Adair, Corvallis, Oregon, is lucky enough to have his wife, Thelma, and his young son, Tommy, with him. "Hap" was in town recently for a short stay when he was called back home because of the death of his father.

Dr. "Luke" Reed is now at Muroc Field in California, an Army air base, and he's chief-of-staff of the medical service there.

Dr. Herman Ipp is at San Antonio Aviation Cadet School in Texas and Dr. Malcolm Hawk is at Camp Crowder in Missouri.

Dr. Samuel Klatman's post office address is Seattle Port of Embarkation in Washington,—but they say that it really is cold in Alaska.

Dr. Lawton and Dr. Sam Schwebel are both in the Navy and have been all over the Pacific. At one time, several months ago, Dr. Schwebel met four Youngstown doctors in several ports in the Pacific and all within the space of a week or so. He met Dr. Stan Myers, Dr. Lawton, Dr. Keogh, and Dr. Sisek. It certainly must have been thrilling for all of them to see one of the "home-townners."

Just this morning Mrs. Middleton has returned home from visiting her husband who is stationed in Evansville, Indiana.

From all reports, this war business hasn't phased Dr. Stan Myers' nonchalance. One of his Christmas gifts to his wife, Peg, was a couple of huge ants,—dead, of course—enclosed in one of his letters written somewhere in the South Pacific. If officer's letters require censoring, the Board of Censors who passed his letter must have had a sense of humor, because the ants arrived, intact, along with the letter. And woe to the hostess who, after this world war is past history, invites the Stanley Myers to Sunday night supper, and serves Spam!! Stan has had

it served to him in every manner imaginable, and never even wants to HEAR the word, Spam, when he gets home. Stan saw action at Guadalcanal, but has been transferred to some other Pacific "hot-spot" now. When he "joined up" he wanted to see action, you know. Well, I guess he's seen plenty of it by now.

Dr. Larry Weller is at Camp Wallace, Galveston, Texas, and Dr. Wales is at Camp Howze, Texas.

Dr. "Tommy" Tims is in England and has recently received his Captain's bars.

Dr. Welter is at Camp Beale, California, and Dr. L. H. Moyer is at Luke Field, in Yuma, Arizona.

Dr. Herman Zeve is in Trinidad, British West Indies. He writes that the sanitation conditions there—or rather, the lack of them—are such that the perfume of the place can be scented for miles—around or straight up!

Dr. Epstein is still at Fort Jackson, Columbia, S. C.

Dr. John Rogers is in Charlotte, N. C., and is fortunate in having his family with him there.

As for the Youngstown Hospital Internes, I have obtained very little news, aside from the fact that Dr. Tingwald is in Africa and at Casablanca.

The Youngstown Hospital Association and the St. Elizabeth's Hospital each have a former interne who is believed now to be a prisoner of the Japs. Both our Dr. Bartz and St. Elizabeth's Dr. Belinky were at Corregidor when that place was overpowered. Just recently I read one of the last letters received from Dr. Bartz, which was sent to a friend in town and reprinted in his church bulletin. There was one quotation in his letter which he repeated several times and which has revolved over and over again in my mind—"And above all, to thine ownself be true." I believe that expresses exactly what all our service men wish us to keep in mind while they're away.

ELIXIR PHENOBARBITAL

**Double
Strength**

(NOT N. F.)

Green

Differs from the N. F. Formula of the same name in color and flavor only. Color Green. Alcohol 35%.

Each teaspoonful (1 fluidrachm) contains $\frac{1}{2}$ gr. Phenobarbital.

April

SINCE LAST MONTH—

Dr. S. R. Zoss was elected to membership in the American College of Allergists at a meeting recently held in Kansas City.

Lt. Ursula J. Thomas and Lena F. VanSickle, graduates of Youngstown Hospital Training School, are members of a specially trained army air force evacuation unit which flies wounded and sick soldiers from the Tunisian front. Lt. Thomas' home is in Youngstown and is well known by our doctors here. Lt. VanSickle's home is in Salem and is also well known here.

Dr. Brack M. Bowman has been commissioned a major in the U. S. Army and reported to Carlisle Barracks the 26th of March.

Mrs. R. B. Poling, vice president of the Women's Auxiliary to the Ohio State Medical Association and Mrs. F. F. Piercy, president of the Mahoning County Auxiliary, attended the state association meeting at Columbus, March 30th and 31st. The state auxiliary met in conjunction with the war conference of the Ohio State Medical Association and held a discussion of its role in making America healthier.

Dr. and Mrs. S. M. Hartzell recently returned home after an extended visit in California.

Capt. R. H. Middleton who is stationed at Evansville, Indiana, spent a few days with his family recently.

Miss Jeanette McQuiston, a graduate nurse of Youngstown Hospital Training School has enlisted in the Army Nurses Corps and reported for duty March 15th, Augusta, Ga.

Dr. M. W. Baker, former local dentist, has been promoted to captain at Kellogg Field, Battle Creek, Mich.

Dr. V. C. Hart is now associated with Dr. John E. L. Keyes, 613 Home Savings & Loan Building, Youngstown, Ohio. Dr. Hart is in the office Monday, Tuesday and

Saturday of each week from 10:00 A.M. to 4:00 P.M. Other days of the week Dr. Hart is in Cleveland, and at a later date hopes to be able to give his full time to the practice here.

Dr. E. E. Kirkwood, Superintendent of the County T. B. Hospital, was recently presented, by Youngstown Eagles, with an engraved plaque as the "Outstanding Humanitarian of Mahoning County."

On April 8th, Dr. C. B. Norris spoke to the Youngstown Women's Christian Assn., Belmont Branch, and on April 13th to the Home Nursing Division of the Red Cross. The subjects discussed were "Different Phases of the Venereal Problem."

In addition, Dr. Norris spoke before the staff of the Alliance City Hospital, Feb. 9th, subject, "Fungus Diseases of the Skin."

Dr. R. B. Poling attended New Orleans Postgraduate Assembly week of March 15th.

Dr. F. W. McNamara spent a short visit the first week in April with his daughter in New York.

The registration from Youngstown at the Ohio State Medical meeting at Columbus, March 30 and 31 were Doctors E. H. Nagel, E. J. Reilly, W. M. Skipp, G. M. McKelvey, F. F. Piercy, R. R. Morrall, E. C. Baker, J. N. McCann, and A. B. Sherck.

President-Elect E. H. Nagel has appointed Dr. S. R. Zoss Publicity Chairman to fill the vacancy created by Dr. B. M. Bowman's entering military service.

Eleanor Says Betty Dood It!

Mrs. Ivan C. (Eleanor) Smith wishes us to correct our note Page 58, March Bulletin. She says credit belongs to Mrs. A. J. (Elizabeth) Brandt for this excellent report. OKay, Betty—but don't stop reporting.

FROM THE SECRETARY

The regular monthly Council meeting was held at the office of the Secretary on the 8th of the month.

The following applications were approved by Council:

For Active Membership

Dr. W. H. Atkinson

Dr. B. B. Burrowes

Dr. Wm. R. Smith

Unless objection in writing is filed with the Secretary within 15 days, the above applicants become members of the Society.

G. M. McKELVEY, M. D.,
Secretary.

Professional Women's Club Brings DR. CATHERINE MCFARLANE on Cancer

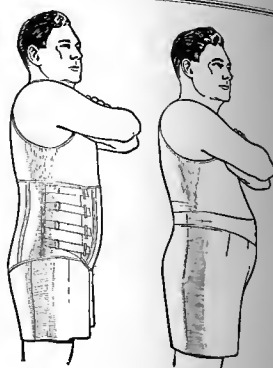

Dr. Catherine McFarlane, Chief Surgeon of Women's Medical College, Philadelphia, will deliver an address on Cancer, on Friday, April 30th, at 8:00 P. M. The meeting will be held in Trinity Church in the Great Hall.

The Public Is Cordially Invited No Charge

Dr. McFarlane is a distinguished surgeon, she has for many years conducted a vast amount of investigative work in cancer, and she is a most effective speaker. She comes to Youngstown under the sponsorship of the Youngstown Business and Professional Club.

BE SPECIFIC! Food Rationers Tell Doctors

Mr. F. L. Donnell, representing the Ford Panel of the Rationing Boards of Mahoning County, requests doctors to be specific as to (a) amounts and kinds of foods for which special allowances are requested for individual patients, and (b) state whether period covered is 30 or 60 days.
